

第一届国际汽车照明创新技术与标准化高峰论坛暨 第五届中国汽车灯光标准法规交流会

The 1st International Executive Summit on Automotive Lighting Innovation Technology and Standardization
& The 5th Sino-Europe Conference on Automotive Lighting Regulations and Standards

会议时间

2019年6月26日 报到
2019年6月27日 正式会议
2019年6月28日 执行委员会闭门会议

Meeting Time

June 26th, 2019 Day for Registration
June 27th, 2019 Day for Formal Meeting
June 28th, 2019 Close Meeting for Executive Group

会议地点

上海机动车检测认证技术研究中心有限公司

Meeting Place

Shanghai Motor Vehicle Inspection Certification and Tech
Innovation Center Co., LTD (SMVIC)

联合主办单位

- 中国汽车工业协会车用灯具委员会
- 中国国际汽车照明论坛 (IFAL) 国际组委会
- 全国汽车标准化技术委员会灯具及灯光分技术委员会
- 上海机动车检测认证技术研究中心有限公司
- 中国照明学会交通照明与光信号委员会

Organizers

- Vehicle Lamp Branch of China Association of Automobile Manufacturers (VLB-CAAM)
- IFAL International Organizing Committee
- Sub-Committee 21 on Lighting and Light of National Technical Committee 114 on Road Vehicles of Standardization Administration of China (SAC/TC114/SC21)

会议主题

新技术下的标准法规之路

序

机动车灯具领域近几年呈现快速的增长趋势，各类新技术和新产品不断涌现。然而产品的快速发展与标准的滞后问题之间的矛盾始终存在，且越来越突出。造成此矛盾的主要原因之一是国内欠缺支撑标准制定的基础研究，机动车灯具领域迫切需要一个持续为标准制定提供技术支撑和输入的平台。

会议主办方作为机动车灯具标准化工作的管理单位，负责组织本领域国家标准和行业标准的制修订工作；同时拥有汽车照明领域最新技术和学术的交流平台，能够聚焦高端、热点和创新技术。两者的结合为打造一个致力于将新技术转化为新标准的平台提供了组织基础。

而今年的中欧汽车灯具标准法规交流会形式与往年不同，今年会议将与第一届国际汽车照明创新技术与标准化高峰论坛紧密结合，国际上邀请具有技术实力引领的汽车照明专家，国内通过定向邀请行业内技术主任及以上级别专家，聚集本领域具有实际推动力、走在技术创新最前沿的发言体以及相关政策和标准的制定者，共同讨论政策、标准法规 and 新技术，从而更快速有效地促进新技术在标准的研究和制定中的应用。

Theme

Paving regulatory road for new technology application in China

Preface

In recent years, the industry of automobile lamps and lighting has shown a rapid growth trend, along with the emergence of various new technologies and products. However, the contradiction between the rapid development of products and the lagging of standards and regulations always exists and has become more and more obvious. One of the main reasons for this contradiction is the lack of basic research to support the establishment of standards in China. The field of automobile lamps and lighting urgently needs a platform which can continually provide scientific and technical input for the development of standards.

The organizer, as the management unit of the standardization of automobile lamps, is responsible for facilitating the revision of national and industrial standards in this field. Meanwhile it would provide the exchange platform for latest technologies and academic in this field so that it can focus on these high-end, hot and innovative technologies. It makes it possible to create a platform dedicated to transforming new technologies into new standards.

This year's Sino-Europe Conference on Automotive Lighting Regulations and Standards is different from previous years. It will be closely linked to the 1st Executive Summit on International Automotive Lighting Innovation Technology and Standardization. By inviting international experts with technical strength and domestic technical managers or experts of above level in the automobile lighting industry, it will gather person who are at the forefront of technological innovation and also have poetical influence, and relevant policies and standards makers, in order to discuss policy, standards and regulatory development and new technologies and their interactions, and the need for new approach to standards and regulations development. As a result the application of new technology for standard research and development can be promoted more quickly and effectively.

会议议题

- 自动驾驶车辆的照明技术
- 汽车照明和信号新技术
- 检测认证
- 法规标准
- 前沿技术

讨论题目

· 道路交通与信号设施标准现状及车路互联法规化的可能

· 智能网联汽车发展现状和法规要求

· 对未来汽车灯具标准法规的想法和建议

· 灯具CCC认证的CoP控制计划和执行报告

· 针对机器视觉的汽车灯具新技术和解决方案

· 人机共驾阶段的汽车灯具技术

· 汽车外部氛围灯相关技术要求介绍

· 不同文化、交流和行为背景地区的自动驾驶

Discussion Topics

· Current status of road traffic and signal facilities standards and the possibility of road and vehicle regulation interconnection

· Intelligent network automobile development status and regulatory requirements

· Ideas and suggestions for standard and regulation of vehicle lighting in the future

· CoP Control Plan and executive report in the Rules for CCC on Lamps

· Vehicle lamps' new technology and solution for image sensing

· Dealing with mixed technology traffic (driver-driven and automated vehicles)

· Introduction of related technical requirements for automobile exterior decorative lamps

· Automated driving in areas of different cultural, communication and behaviour backgrounds

讨论议题

· 灯光与传感器的交互

· 自动驾驶照明

· 先进照明技术

· 法规——道路安全的阻碍或解决方案

Discussion Topics

· Interaction between light and sensing

· Lighting for automated driving

· Advanced lighting technology

· Regulations - obstacle or solution to road safety

圆桌会议

· 汽车车灯技术进展和对标准法规的挑战

· 车路互联系统中来自道路设施与交通信号的技术和法规壁垒

Panel Discussion

· Improvement in technology and challenge of automotive lighting standard and regulations

· Technical and regulatory barriers in vehicular interconnection systems from road facilities and traffic signals
